Sihala Islamabad.

## INTRODUCTION

Civil Engineering deals with planning, designing, construction, maintenance, and rehabilitation of infrastructure for the sustainable development of the nation.

Department of Civil Engineering at Ibadat International University, Islamabad is serving the community by ensuring efficient transfer of Civil Engineering knowledge to its students.

The students are provided with an exceptional blend of theoretical concepts and their practical applications, enabling them to face real-world challenges with confidence.

## CAREER PROSPECTS

Various opportunities are available in NHA, WAPDA, Railways, Irrigation Department, Military Engineering Services, NESCOM, PAEC, National and Multinational Consultancy Services, Contractor Firms and Entrepreneurship.

The graduates will play a key role in the execution of projects like roads, buildings, bridges, dams, barrages, housing societies infrastructure, and quality testing laboratories.

## ACCREDITATION:

Civil Engineering program is accredited by the Higher Education Commission (HEC) & the Pakistan Engineering Council (PEC).
